How To Use This Index

This is an author and subject index to the articles in *The Texas Observer*. Subject headings as established by the Library of Congress have been used as closely as possible with a more precise breakdown for special events in the state.

Certain types of articles have not been included in this index. The columns that have been excluded are:

Dialogue
Political Intelligence
Observations

ARRANGEMENT

Authors and subjects are arranged in one alphabet. Headings are alphabetized on the word-by-word convention. Abbreviations appear at the beginning of each letter.

Entries are arranged in chronological order under each subject heading. Under personal names, entries *about* an author precede those *by* him.

All agencies of the United States government are filed under UNITED STATES and subdivided by agency or department. Thus the Federal Power Commission is found under UNITED STATES FEDERAL POWER COMMISSION.

All agencies of the Texas government are similarly filed under the heading TEXAS: thus, TEXAS LEGISLATURE and TEXAS RAILROAD COMMISSION.

CROSS REFERENCES

See references are made from terms not used in the accepted subject heading and from acronyms to the accepted form of the name.

See also references are made to subjects where related entries may be found.

BOOK REVIEWS

All reviews of books are entered under the heading BOOK REVIEWS. Entries under this heading are arranged alphabetically by the author.
